

Success Plan – 3 Steps to Optimal Outcomes in Nursing Education Faculty-Focused Development

Life-long learning is about taking your practice as an educator to the next level. The following 12-month plan is designed to allow you to interact with some of the leading authorities in nursing and academia and will help your team optimize curricular growth and give you the tools you need to take your students to the next level.

New Team Members: partner with your team leader to help focus on priority webinars as part of your orientation.

Team leaders: identify focused events to be done as a group. Some teams host a “lunch and learn” once a month and view a webinar as a group; others have a mini-conference and watch 3 events in one day as a team.

All team members: can access their contact hours once they complete the webinar and evaluation.

Success Step 1 – [Summer 2022]

All team members:

- [Preparing for the Next Generation of NCLEX®: Applying Clinical Judgment in the Classroom](#) / Sherrill [1 hour]
